### Finishing

1. Sew the left and the right arm to the body.
2. Sew on each side of the helmet a button.

3. Attach the helmet to the head and sew it.
4. Put the chest cover on the body and sew one on front and one in the back.

5. Attach a button (Laser) on the center of the chest
6. Cut out of the felt the shape of the mask and the "eye openings". Sew the eye openings in front of the mask and embroider the mouth. Sew the felted shape of the mask on the back.

7. Embroider the elastic band around the mask, one in the upper part and one in the lower part of the mask. Tighten the elastic band slightly, so that the mask curves a little bit. Leave the elastic bands on the side, they will be attached later to the helmet.

8. Place the mask on the head and wrap the elastic bands around the button and tie them.

9. Sew the side parts on the hip. When you sew them, pull the thread through the hole doll and tighten the thread a little, so that the hips come closer to each other.
