Now connect the tabletop to the table legs:

- R 14 Hold both pieces together and crochet through both parts 92 x sl st, one time around.
Cut the thread and sew it.

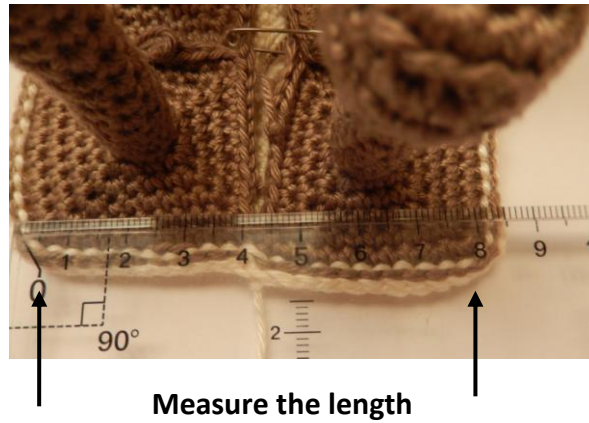

Finishing

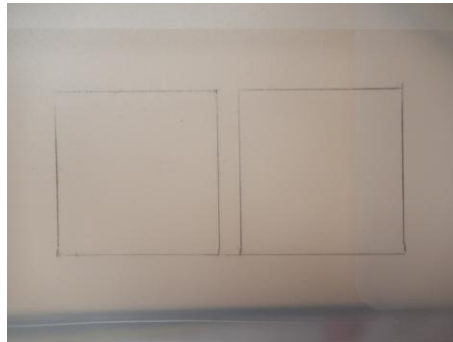

Again, stuff the legs firmly, so they can not bend.

To make the table stable, we need to insert two pieces of plastic. You can cut these parts out of margarine boxes or plastic folders. I have used a plastic folder.

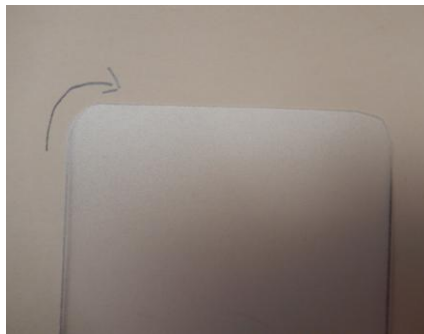

First, measure the length of the inside of the table (from slip stitch to slip stitch)

Then draw two squares (with the length you measured) on the plastic material and cut them out

Now cut off the corners, so that the square has a rounded corner.

Insert both pieces between the upper and lower part of the table.

Sew the opening of the table...

... Congratulations, the table is finished 😊

Have fun crocheting your mini-table!
