## Trailer

**Bottom (2 x), make two, one in green and one in white**

2 x ch

|      |  |           |
|------|--|-----------|
| R 01 | 8 x sc in second chain from hook       | <b>8</b>  |
| R 02 | 3sc, sc, 3sc, sc, 3sc, sc, 3sc, sc     | <b>16</b> |
| R 03 | sc, 3sc, (3 x sc, 3sc) x 3, 2 x sc     | <b>24</b> |
| R 04 | 2 x sc, 3sc, (5 x sc, 3sc) x 3, 3 x sc | <b>32</b> |

Make two parts, 1 x white, sl st, cut the thread,

1 x green, do not cut the green thread, because you keep on crocheting with this color.

For a better stability of the trailer bottom you can insert a piece of plastic or cardboard between the crocheted parts. Measure the size of the crocheted bottom and cut out the shape. The plastic or cardboard piece should be slightly smaller than the crocheted bottom.

Put the green part on the white and crochet them together with the following stitches:

|      |  |           |
|------|--|-----------|
| R 05 | 3 x sc, 3sc, (7 x sc, 3sc) x 3, 4 x sc | <b>40</b> |
|------|--|-----------|

Attention: Before you finish this round, you must insert your plastic or cardboard piece between the two bottoms.

|      |                               |    |
|------|-------------------------------|----|
| R 06 | <b>BLO:</b> sc in each stitch | 40 |
| R 07 | sc in each stitch             | 40 |
| R 08 | sc in each stitch             | 40 |
| R 09 | sc in each stitch             | 40 |
| R 10 | sl st in each stitch          | 40 |

cut the thread and sew it

### Wheels (6 x for Egomobil and trailer)

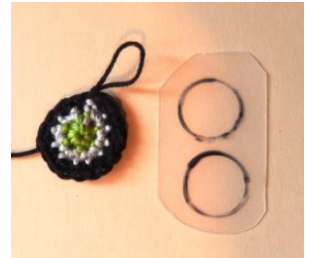

2 x ch in color green

|      |   |    |
|------|---|----|
| R 01 | 5 x sc in second chain from hook, <b>sc with color change</b> to gray   | 6  |
| R 02 | inc in each stitch, sl st in the back loop of the first crocheted stitch in this round<br><b>change color to black</b>          | 12 |
| R 03 | Start in the first stitch and go through both of the loops,<br>(sc, inc) x 6, sl st in the first crocheted stitch of this round | 18 |

To make the wheel stable, you need a piece of plastic or cardboard. Take the size of the crocheted wheel you have made so far and transfer the shape to your material. You need two pieces for one wheel.

Now you can tie the threads of the color change.

|      |  |    |
|------|--|----|
| R 04 | Beginning in the first stitch (where you have crocheted your sl st)<br><b>BLO:</b> sc in each stitch | 18 |
| R 05 | sc in each stitch  | 18 |
| R 06 | <b>BLO:</b> (sc, dec) x 6  | 12 |

Insert one of the cut out pieces, stuff the wheel with a small amount of fiberfill and then insert the second piece.

|      |         |   |
|------|---------|---|
| R 07 | dec x 6 | 6 |
|------|---------|---|

sl st, cut the thread and sew the opening

## Finishing

Pin all the wheels carefully to the Eggmobile and the trailer and sew them. Take your time and sew them carefully and make sure that the wheels on both sides are located parallel to each other.

Now make a loop for the little car: Start in the back of the Eggmobile and crochet with 2 threads:

7 x sc, close the chain with a sl st to the Eggmobile. Cut the thread and sew it.

For the trailer: Pull two threads through your bead. Then insert your hook at the center of the trailer and crochet with two threads 3 x sc, then make the fourth sc and crochet the bead inside the stitch. Cut the thread and sew it.

*Have fun crocheting your Eggmobile!*
